

## Declaration concerning the management quality system of the Slovak Institute of Metrology, Slovak Republic

The general director of Slovak Institute of Metrology (further on SMU) in connection with the international convention on the mutual recognition of national standards and calibration, measurement certificates issued by national metrology institutes, abbreviated **CIPM MRA** (<https://www.bipm.org/en/about-us/>) hereby declares, that from 2002 SMU has implemented the quality management system, which is documented through the internal quality management system documentation (<https://www.smu.sk/certifikaty-smu/>). This system together with all documentation is in line with all relevant requirements originating from international standards ISO 9001, ISO/IEC 17025, ISO 17034 and with the CIPM MRA convention including the calibration and measurement capabilities (CMC) that are listed in the KCDB database (<http://kcdb.bipm.org/>).

Furthermore the general director of SMU commits that all necessary measures will be undertaken to ensure the conformity with the CMCs, CIPM MRA convention and with the requirements set by the international standards ISO 9001, ISO/IEC 17025 and ISO 17034.

This declaration has been issued in order to follow the CIPM MRA convention within SMU.

In Bratislava, 01. 10. 2020

Ing. Maroš Kamenský, MBA  
general director of SMÚ
